Subject: A new sign-in on Linux device

Body:

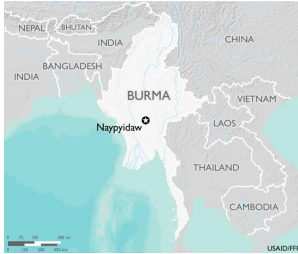

Hello Bobby ,

We noticed a unusual sign-in activity to your mastercard account on a Linux Device

IP Address : 192.168.254.101/24

Device : Linux (x64)

Location: Burma, Myanmar

Time : 20:36 PM (CEST).

If this was you, you don't need to do anything. If not, we'll help you secure your account

Review your security activity immediately : [Click Here](#)

Regards,
Mastercard IT Security
